

Shaping Flexible Environments: CPD for RIBA Members

style
GROUP

RIBA
CPD Providers Network

Multi-Functional Space

This CPD seminar introduces innovative approaches to space division and explores how multi-functional systems—including folding, movable, and vertically rising solutions—can be designed, specified, and delivered effectively within modern buildings.

Course Content

- Design principles and key benefits
- Structural and building interface considerations
- Acoustic performance and compliance
- Automation, finishes and aesthetic options
- Health, safety and environmental considerations
- Maintenance requirements and BIM integration

Duration

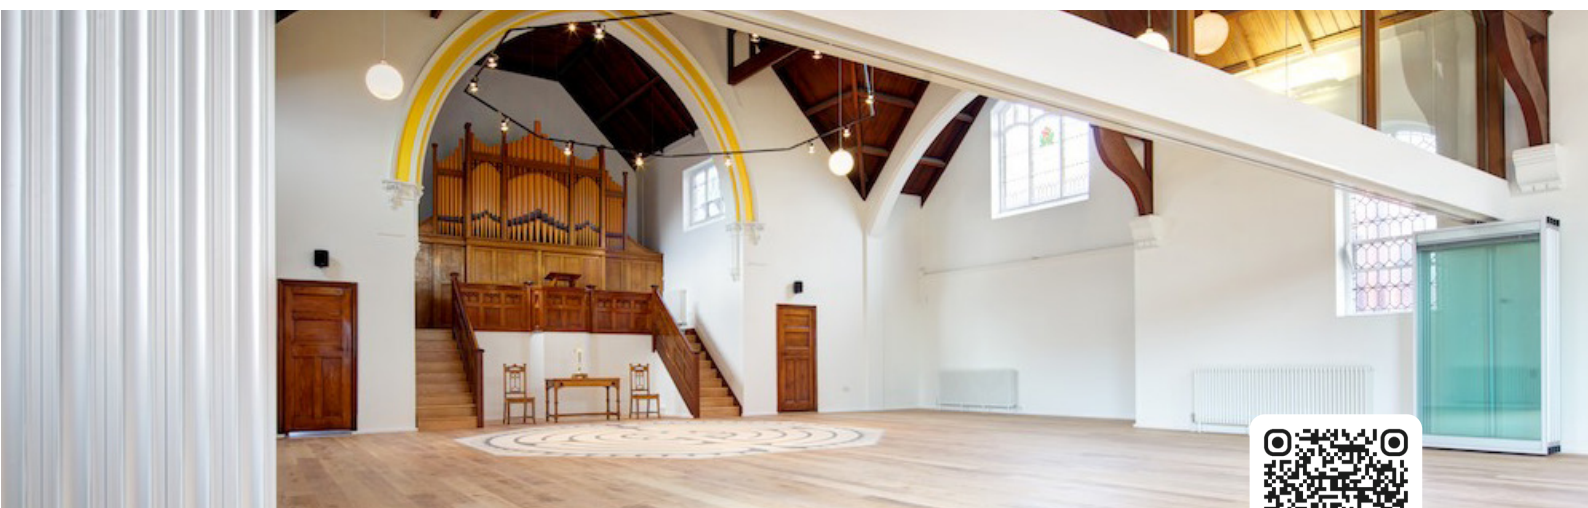

45-60 minutes

CPD Resources

You will receive supporting technical information, including handouts and an Acoustic Checklist PDF.

Where we're Based

Style operated nationally, with offices in Dorset, London, Leicester, Manchester and Stirling. Each location is home to a dedicated management team committed to mentoring and supporting apprentices as they develop.
